Percentage 70%
- **Class XII, Annai Violet Matriculation & Hr. Sec. School , Chennai** 2021
Percentage: 83%
- **SSLC, Annai Violet Matriculation & Hr. Sec. School , Chennai** 2019
Percentage: 77%

WORK EXPERIENCE

- **Front-end developer at Znyck Technologies PVT. LTD. | www.znycktechnologies.com**
I have been working as a front-end developer, creating responsive and visually appealing web interfaces using HTML, CSS, and Tailwind CSS. I use React.js to build interactive components and single-page applications, ensuring smooth user experiences and clean design implementation. I have applied JavaScript to add dynamic functionality and improve client-side performance. I follow best practices in writing clean, maintainable code and use version control tools like Git to manage my workflow. My experience also includes translating UI/UX designs into functional front-end code while maintaining performance and cross-browser compatibility.

PROJECTS

- **The Social Projects website (Freelance)** | Next.js | [webLink](#)
Built a responsive donation platform using HTML, CSS and Next.js (React). Contributed to the front-end team, focusing on UI development and bug fixes to improve user experience.
- **JCM (Judea Christ Ministry) website** | React.js | [Link](#)
Developed a fully responsive website for a non-profit trust using React.js, Tailwind CSS, HTML, and JavaScript. Showcased various ministries with smooth navigation and interactive UI.
- **Bible web App** | vanilla js | [Link](#) | [webLink](#)
Developed a dynamic web application for reading bible, allowing users to search bible books, chapters, and individual verse's status in real time.
A very simple site where you can find any book of your wish smoothly without any lag.
- **Tic-tac-toe Game** | vanilla js | [Link](#)
Created a browser-based Tic-Tac-Toe game using HTML, CSS, and JavaScript to build foundational web development skills.
- **Weather app** | vanilla js | [Link](#)
Built a dynamic weather app using HTML, CSS, and JavaScript. Integrated real-time weather data and designed the background to change based on the queried country's temperature.

SKILLS

Programming: JavaScript, HTML, CSS

Frameworks and Libraries: React, Next.js

Developer Tools: GitHub, Figma, zoho catalyst

Soft Skills: canva designing, Analytical and Adaptable

Languages: • English • Tamil • Malayalam • French B2
